Joel,

Do u have an interest, or know someone who would have an interest, in the following?

Heshy

I have two \$10M Policies on the late Cilya Weinberger that Lincoln claims I lapsed in October of 2013 by missing a payment. I hired an Actuarial Firm & I'm contesting Lincoln's claim. The Actuarial Company has a lot of experience and is telling me that I have a 40 to 50% shot of winning without a Lawsuit, and a 65% chance of winning if I follow through with a lawsuit.

Here is the paperwork; I hope that B'ezras Hashem, we will be successful without resorting to starting a lawsuit. Regardless, we hope to get more information, co-operation and damaging admissions from Lincoln by starting the intercourse with them via the actuarial route.
As I need funds for the actuaries and legal consultations even before filing a lawsuit, and because someone else's Mazel may be beneficial as well; here is my proposal:

Amount I need is \$50,000, but I don't need it from a single source.
In order to avoid Ribis issues; your risk would be 10%; if I lose everything you would only get back 90% of your investment (if I get nothing from Lincoln).

If I'm successful in getting Lincoln to pay the \$20M death benefit, the investor gets the return of his investment plus 500% of his investment. If we come to some settlement of less than the full \$20M, then the investor would get the return of his investment, plus 400% of his investment. If we get back only the premiums paid in (\$4M), the investor would get the return of his investment, plus 300% of his investment.

Call me with any Q's
Heshy
